

Web Services and Rates

Generally, a fixed quote can be provided prior to the start of work. However, for smaller jobs where quoting may be more difficult due to the complexity or uncertainty of the job scope, the following rate schedules apply. Please do ask for a quote first.

Custom Web Programming / Database Design / Layout / Graphics Design

This includes the development of code in (X)HTML, CSS, JavaScript, PHP, SQL, etc., and graphics design

Rate / Hour	Up-To Hours++
\$70	1 - 10 per month +
\$60	11 - 30 per month
\$40	31 - 120 per month
\$95	Urgent work (when available)

On-going Maintenance

Maintenance of completed websites is billed at \$50 per hour.

Content Development and Editing

Development and editing of website content (articles, menus, sections, categories, etc...) is billed \$50 per hour (When available).

Web Analytics

Web analytical services are billed at \$50 per hour.

Search Engine Optimization

Effective search engine optimization (SEO) involves developing a comprehensive strategy to promote your website and often involves a lot of modification to your web site's source code. SEO is billed at \$50 per hour.

Notes

Billings occur in one-hour increments. Unless otherwise specified, a billing cycle is one calendar month.

- + Includes 'one time only' and small projects of 10 hours or less.
- ++ Refers to the minimum amount billed for an unscheduled task not included in a pre-planned project or work list
- +++ Quotes for additional services refer to the rendition of the service itself. Additional charges for products and services from other sellers may apply.
